

Assignment 1

In this assignment we asked to criticize about two other projects by those parameters:

- 1) Projects reports quality.
- 2) Code writing and organized (classes and packages) quality.
- 3) System quality (runnable and output).
- 4) Comparative rating – their project against our.

The projects in the following link:

https://drive.google.com/drive/folders/1L_3mw0dhpGMHH-VWU8CLDgQJSail5xml

We added our project to [GitHub](#) with [Readme](#) file that have short explanation about the project, in addition we also added to the project a folder with all our input files.

We asked to add to the code a tests list [Unit Testing](#).

For the last section we asked to change the program's output file format that will include the time of every measure and will allow display them on a time stamp.

For example: <https://support.google.com/earth/answer/148094?hl=en>

We could execute the task by using the following code:

```
1. date = date.replace(' ', 'T') + 'Z';  
2. place.createAndSetTimeStamp().setWhen(date);
```
